# REMOTE LEARNERS

First, I want to welcome you to the class this year. Even though you are working remotely, you are still part of my class, and I am happy you are here.

Please know that the programs and assignments you will complete remotely are parallel to the programs and assignments students are completing in class.

Let's talk about these programs, your daily procedures, and the daily expectations for the class.

## TECHNOLOGY:

Porcupine Portal (CLASSLINK)

Schoology

Edgenuity

## Daily Procedures:

1. You will log into Porcupine Portal and then go to Schoology.

2. Complete assignments posted in Schoology.

### FIRST DAY:

1. In Schoology, select Course Information and look at all information posted in this section.
2. Next, select the Learning tab. You will find a weekly folder in this tab. Select Monday and complete the assignments. This is where all your assignments will be housed.
3. When you get the chance, please ask your parents/guardians to select the Parent Information tab. They will be able to look at the Syllabus and electronically sign, just like you electronically signed.
4. This information is also in an email message I sent through Schoology. Make

sure you open all messages sent through Schoology. This will help you navigate through the courses as well.

## EXPECTATIONS:

1. Login to Schoology EVERYDAY and complete assignments assigned ONLY FOR THAT DAY. If you move ahead in assignments, you will be counted absent for the days you did not complete work.
2. You are expected to work at least 30 minutes per day on each subject.
3. Attendance will be taken everyday, so please stay on assigned assignments.
4. Check your grades in Skyward. Official grades will post in Skyward, NOT Schoology or Edgenuity.
